Emerging Drug Trends

Monday, July 23, 2018

Instructor: Deputy Jeremy Schwarz, DRE

Drugs of abuse are ever fluctuating and awareness of prevailing trends is of crucial importance to professionals in law enforcement, substance use prevention and addictions treatment. This training is specifically designed for mental health professionals treating criminal justice clients for substance use disorders. Attendees will learn to recognize the signs, symptoms and brain chemistry of different drugs; criminogenic needs, risk factors and behaviors involved and the laws that cover sales and use.

OBJECTIVES

At the end of this training, participants will:

- Identify the new emerging drug trends
- Understand the signs and symptoms of drug use and how drugs change the way the brain works
- Recognize the association of drug effects and criminal activity

About the Instructor:

Deputy Jeremy Schwarz attended the National Highway Traffic and Safety Administration Drug Recognition Expert (DRE) Training in April of 2013, was certified a DRE on June 13, 2013, and was subsequently issued certificate #021892 by the International Association of Chiefs of Police on July 1, 2013. Deputy Schwarz graduated from the University of Nebraska – Lincoln in May 2001. He began his law enforcement career in June 2001.
