

School Community Intervention and Prevention Presents

Marijuana Use & Adolescent Brain Development

Friday, September 16, 2022

Objectives:

As a result of this training, participants will gain new insight into the negative physical and mental health effects of marijuana on the developing adolescent brain, discuss common misconceptions about marijuana use, and differentiate between recreational marijuana use versus problematic use in adolescents.

Presenters:

Whitney Chrisman is a Licensed Independent Mental Health Practitioner and Licensed Alcohol and Drug Counselor. Whitney has been practicing therapy for 5 years and has worked primarily with adolescents and young adults. She has previous experience working in a residential substance use treatment setting and is currently working at Jenda Family Services in their Outpatient Clinic. Whitney has been trained in several clinical areas including substance use, trauma and human trafficking and enjoys implementing a variety of treatment approaches including DBT, CBT, narrative, and art therapy.

Continuing Education Credit

This program may meet the criteria of an approved continuing education program for certified social workers, certified master social workers, licensed alcohol-drug counselors or licensed mental health practitioners for 3 contact hours. Other healthcare professionals may use their certificate of attendance to claim continuing education hours through their certifying body.

Participants must attend the entire workshop in order to receive credit.
