

School Community Intervention and Prevention (SCIP) is a program of the Lincoln Medical Education Partnership (LMEP), dedicated to strengthening the behavioral health and well-being of students through school-based prevention, intervention, and support services.

As of July 2026, SCIP serves 186 schools across Nebraska, providing support in every Behavioral Health Region. While Region 5 has the largest concentration of participating schools, SCIP's statewide infrastructure enables the program to effectively serve schools in every region. This extensive reach reflects SCIP's ongoing commitment to ensuring that students, educators, and school communities throughout Nebraska have access to high-quality behavioral health resources and support.

Below is a list of participating schools.

Region 1 Schools:
